date	29/09/2026
Team id	SWTID-2026-9377
Project name	EduGenie-AI-powered learning assistant
Maximum marks	1 mark

The EduGenie project demonstration will be conducted in a clear and organized manner.

The demo will introduce the problem faced by students and present the proposed solution.

The main features will be demonstrated using sample educational content.

Google Gemini AI responses will be shown to explain how EduGenie supports student learning.

The demo will conclude with the project benefits, future scope, and Q&A session.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce EduGenie and explain the learning problems faced by students.	2	Member 1
2	Solution Overview	Explain EduGenie and how Google Gemini AI is used to support student learning.	2	Member 2
3	Live Feature Demonstration	Demonstrate the main features of EduGenie using sample educational content.	4	Member 3
4	AI Response Demonstration	Show how the system processes the input and generates a simple AI response.	3	Member 4
5	Benefits & Future Scope	Explain the benefits and possible future features of EduGenie.	2	Member 1
6	Q&A Session	Answer questions related to the project, features, and technology used.	2	Member 2
